

# The Orchid Collection

Genesee Region Orchid Society Inc.

Volume 30, Number 9

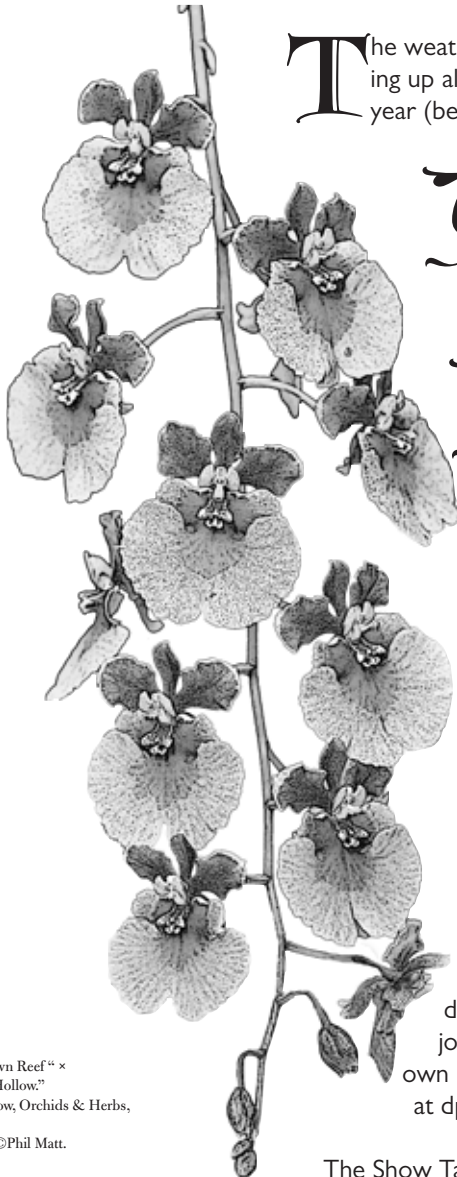

May, 2009

[www.geneseearchid.org](http://www.geneseearchid.org)

Beginners Meeting 6:30 p.m. \* Social "Hour" 7:00 - 7:15 p.m. \* Meeting begins at 7:15 p.m.

Senior Adult Lounge at the Jewish Community Center, 1200 Edgewood Avenue, Rochester, NY

## NEXT MEETING: MAY 4, 2009

The weather has finally switched over to Rochester's "other" season. Things are green-  
ing up all over, and as the orchid season winds down, our last formal meeting of the  
year (before the June picnic) is upon us.

Join us in May as Joane Molenock presents a program devoted to the  
"Mystery of Whiskey Hollow," or "Everything You Need to Know About  
Growing Equitants." As you may be aware, Joane is proprietor of  
The Hollow, Orchids & Herbs in Ithaca, NY, and has been an exhibitor and  
vendor at our spring orchid shows for many years.

Joane's 60' x 20' greenhouse in Ithaca is built on a design from McGill  
University. Originally a "transplant" from California to Upstate New  
York, Joane has many varieties of orchids in her greenhouse, but has  
focused on growing equitants as they mature quickly and because she  
prefers their the flowers. She has done extensive hybridizing of these  
compact plants, as most of you who have seen The Hollow's show  
exhibits can attest. (For those new to growing orchids, an "equitant"  
*ocnidium* has a growth habit such that the leaves grow out from the base  
of the plant in an overlapping or "fan" shape.)

The Hollow in Ithaca is open to visitors by appointment during  
the spring blooming season. Joane will be bringing plants for sale  
at the meeting. If there's anything in particular that you would  
like her to bring for you, please contact Joane; her the website is  
[www.theholloworchids.com](http://www.theholloworchids.com). It features a lot of good information about  
*Tolumnia* culture, as well as a full catalog.

We will be taking Joane out to din-  
ner at 5 p.m. on the night of the  
meeting. The location is to be  
determined. If you're interested in  
joining us (everyone pays for his or her  
own meal...), please contact Diana Polle  
at [dpolle@gmail.com](mailto:dpolle@gmail.com) as soon as possible.

The Show Table will be back, so don't forget your  
flowering plants. We'll see you there!

## Meeting Minutes for April 6, 2009

President **Jeff Snyder** called the meeting to order at 7:20 p.m. He welcomed our visitors. The minutes for our March meeting were approved.

**Judy Ekberg**, Treasurer, brought us up to date on our financial situation:

Checking account balance	\$15,244.08
Savings account balance	2,849.18
Old checking account bal.	<u>15.94</u>
Total funds as of 4/6/09:	\$18,109.20

A deposit from the show of \$10,159.70 includes admissions, member sales, membership renewals and new memberships. A complete 2009 show financial tally will be given at the May meeting. Attendance was 1,513. The long-term average is 1,622 so this year's attendance was only 100 below the average.

Show Chairlady, **Ruth Espinosa-Barone**, expressed her appreciation for all the members' help with the show. She will give details from the show at the May meeting.

Jeff and the members present thanked Ruth for her hard work on the show with a round of applause.

Program Chair **Diana Polle** announced that the annual Picnic will be held on June 7th in a new location. It will be in the Sycamore Pavilion at Ellison Park.

The President announced that **Kim Hober** will be our librarian. Books should be returned at the May meeting.

**Alan Salzman**, Member at Large, announced the 2009-2010 slate of officers:

President – Paul Batz  
Executive VP – Kim Hober  
Program VP – Diana Polle  
Treasurer – Ron Uhlig  
Secretary – Sandi Uhlig

A motion for nomination of Alan Salzman for Member at Large was made by **Diane Bernard**. The motion was seconded and passed. The vote for the above officers will take place at the May 4th meeting.

Program Chair Diana Polle introduced our April speaker, Claudio Rossi of Cloud's Orchids in Jordan Station, Ontario, Canada. Claudio gave an inspiring and enjoyable program on *Coelogynes*.

Paul Batz presented our April Show Table. Our meeting was adjourned at 9:15 p.m.

*Respectfully submitted by  
Sandi Uhlig  
Secretary*

## Awarded Dendrobium Grower Offers Timely Culture Tips

A number of people have asked me to share my cultural 'secrets' to blooming my *Dendrobium senile* 'Mary Ann' AM-CCM/AOS.

From the book *Dendrobium And It's Relatives* (Lavarack, Harris, and Stocker - Timber Press), "This is a small epiphyte from Myanmar, Thailand and Laos where it grows at altitudes of 500 to 1500m in areas with bright light and seasonal rainfall." The pseudobulbs can get to be 6" in length and can have 5 or 6 leaves towards the ends of the pseudobulb. Interestingly they are deciduous, meaning the leaves tend to fall off as you begin cutting back on watering. The book says there are about 3 flowers per pseudobulb. This year one of mine carried 5 flowers and three had 4. This was the first year that some of my pseudobulbs passed 6" in length. Flowering season is late winter and early spring. For me, peak time is usually two weeks before the show in Rochester! The flowers will last about three to four weeks in good condition.

It's recommended to grow this beauty mounted. Mine came mounted on a stick from Andy's Orchids about 5 ½ years ago. I highly recommend buying this from a reliable source like Andy's, where you know you're starting with an established plant.

I grow all of my orchids under lights and have done so for many years. I use T-5 fluorescents

for my high light orchids. I have found these units to be everything they promise as far as high light output goes. The minimal heat they give off is a plus for this species. I put the *senile* within 3 or 4 inches of the lights, so it gets the really bright light and warmth.

A couple of other key elements are constant air circulation and a humidity level that ranges from 50 to 75% all year round. I have a "Vicks" ultrasonic humidifier on a timer to help maintain the humidity levels. Without a doubt the higher humidity extends the longevity of any flower. Air circulation can't be understated. Most of the year, these guys need to be heavily watered then dry off in a reasonably short time to prevent rotting.

When I started getting orchids from Andy's I remember the cultural notes sent with the plant that recommended dunking the plant to water it. This more closely duplicates the heavy rains that fall in the tropics. So once a week, when not in bloom I dutifully set the plant into a deep tray for 10 minutes or so depending on how busy I am. Then during the week it's misted at some point in the day and with the breeze and humidity it seems quite happy.

And now, the secret of my success: "It requires intermediate or warm temperatures and must be given a dry season of about 3 months with little water if good flowering is to be achieved". My interpretation culturally was to begin to taper watering in the beginning of November.

So instead of dunking every week it becomes only twice in this month. In December I stop dunking altogether and just mist on a regular basis.

Through this time the leaves turn from green to yellowish brown and fall off. By January there are usually no leaves left.

The pseudobulbs may shrivel a little. That's ok, but they shouldn't look like they're dead. However, don't water yet! If you start back into your normal watering routine you'll get only new growths and no flowers. So be patient. If all is going well, you will see the new buds developing but don't water yet...

I start watering when the majority of buds have formed. That means they look like flower  
*(continued on Page 8)*

*"And now, the secret of my success..."*

**Librarian Asks for Return of Items**

I would like to remind our members that all outstanding library materials must be returned at the May meeting, as our Library will be closing for the summer months at that time.

Also, I've been taking inventory of our magazines, and find that we are missing some issues. They may be checked out, or we may have never received them. Please check and see if you have any of these issue at home; just bring them to the May meeting or call me to arrange for a time to return them. Here are the issues that are unaccounted for:

<i>Orchid Digest</i>	<i>Phalaenopsis</i>
1993 Vol. 57-3	2002 Spring
1999 Vol. 62-3	2002 Summer
2003 Vol. 67-2	2002 Winter
2008 Vol. 72-3	2003 Winter
2008 Vol. 72-4

- Kim Hober  
GROS Librarian

**GROS Gardenscape Efforts Applauded**

On behalf of my co-Chairs, Sandi and Ron Uhlig, I would like to thank each and every one of the 29 people who made the display, hosting and contribution of blooming plants to Gardenscape a resounding success for 2009.

The GROS was most conspicuous and well represented in a spectacular arena and this local "Rite of Spring." I know the brochures and "press" passed along to each attendee did much to promote our Show & Sale and the world of

orchids we know and enjoy so much. Each and every one of you should be proud of your service and commitment to the Society; we Chairpeople certainly are!

Thank You,  
Alan C. Salzman

# GROS Spring Show 2009 – Awards Listing

## 1. Exhibit Awards

**Best Exhibit In Show (AOS Trophy)** Marlow Orchids

**Best First Time Exhibitor** Paul Batz

**Best Commercial Exhibit, 20 or more plants**

1st Marlow Orchids

2nd Bloomfield Orchids

3rd Murphy's Orchids

**Best Commercial Exhibit, 11-20 blooming plants**

1st Orchids Windswept In Time

2nd Cloud's Orchids

3rd Mount Prospect Orchids

**Best Orchid Society Exhibit, more than 15 plants**

1st Central New York Orchid Society #1

2nd Genesee Region Orchid Society #4

**Best Orchid Society Exhibit, 1 to 15 plants**

1st Genesee Region Orchid Society #1

2nd Genesee Region Orchid Society #3

3rd Genesee Region Orchid Society #2

**Best Amateur Exhibit, greater than 20 plants**

1st Sandi Uhlig

**Best Amateur Exhibit, 8 to 20 plants**

1st Paul Batz

2nd Dwaine Levy/Jeanne Kaeding

3rd Judy Wischoff

**Best Educational Exhibit**

1st Jeanne Kaeding Educational Exhibit

## 2. AOS Awards

**Phrag. besseae v. flavum 'Norma' 81 points AM/AOS**

Bloomfield Orchids

**Paph. micranthum 'Orchid Eden's Mason Smith' 77 points**

HCC/AOS

John Ellenberger

**Den. senile 'Mary Ann' 84 points CCM/AOS**

Tom Daily

**Paph. Bel Royal 'Marlow Orchids' 80 points AM/AOS**

Marlow Orchids

**Lc. Tropical Treat 'Cloud's Molten Desire' HCC 77 points**

HCC/AOS

Cloud's Orchids

## 3. Special Awards for Plants

**Best of Cattleya Alliance**

C. Bow Bells

NFOS

**Best of Pleurothallid Alliance**

Ste. cyripedioides

Windswept in Time Orchids

**Best of Dendrobium Alliance**

Den. senile 'Mary Ann' AM/AOS

**65 Aerangis species, hybrids & intergeneric hybrids, other than above**

1st Aergs. modesta Cloud's Orchids

**67 All other genera-species, hybrids & intergeneric hybrids of the Vandaceous Alliance other than above**

1st Sarco. hartmannii Sonnenberg Gardens

2nd Ren. Nancy Chandler Marilyn Carlson

2nd Trgl. pusilla Tom Daily (CNYOS)

3rd Ren. imschootiana Dwaine Levy

3rd Pps. labukensis 'Tomasso' Mt. Prospect Orchids

3rd Pps. labukensis 'The KID' Mt. Prospect Orchids

**68 Brassia and Ada species and hybrids**

1st Brs. Rex 'Sakata' AM/AOS Main Street Orchids

2nd Ada keiliana 'Jeanne' AM/AOS (Educational) Jeanne Kaeding

3rd Brs. Chieftain (Educational) Jeanne Kaeding

**69 Brassia intergenerics**

1st Bllra. Tahoma Glacier Murphy's Orchids

2nd Gdlra. Pacific Truffle 'Surrogate Star' Cloud's Orchids

3rd Brsa. (Ada keiliana × Brs. Chieftain) (Educational) Jeanne Kaeding

3rd Bllra. Marfitch Murphy's Orchids

**70 Miltonia and Miltoniopsis species and hybrids**

1st Milt. Princess Diana Bloomfield Orchids

2nd Milt. Maui Sunset Bloomfield Orchids

3rd Milt. cuneata Jeanne Kaeding

**71 Miltonia and Miltoniopsis intergenerics**

2nd Odt. Yellow Parade Paul Batz

**72 Oncidium species except Tolumnia (equitants)**

1st Onc. croesus Marlow Orchids

**73 Oncidium hybrids except Tolumnia hybrids**

3rd Onc. Sharry Baby Murphy's Orchids

**75 Tolumnia (equitant oncidium) hybrids and intergenerics: base color of lip White**

1st Tolu. Maple Dancer × Rrm. Hare Hollow Sandi Uhlig

2nd Rrm. (Rrm. Sissy × Tolu. Sammy) The Hollow

3rd Rrm. Apple Hollow Sandi Uhlig

**76 Tolumnia (equitant oncidium) hybrids and intergenerics: base color of lip Yellow, Orange**

1st Tolu. Golden Triangle 'Freckles' AM/AOS Jeanne Kaeding

2nd Tolu. Genting Leopard Sandi Uhlig

3rd Rrm. Peach Hollow The Hollow

**77 Tolumnia (equitant oncidium) hybrids and intergenerics: base color of lip Red, Pink, Lavender**

1st Tolu. Galveston Bay The Hollow

2nd Tolu. (Wave Dancer × Spicy Pink) Sandi Uhlig

3rd Tolu. Charlotte Ray 'The Hollow' HCC/AOS The Hollow

**78 Oncidium intergenerics other than above**

1st Wils. Aloha Sparks Main Street Orchids

3rd Wils. Golden Afternoon 'Rich Yellow' Murphy's Orchids

**81 All other genera-species of the Oncidium Alliance, other than above**

2nd Trpla. suavis Murphy's Orchids

3rd Pyp. papilio Sandi Uhlig

**83 Cymbidium species**

1st Cym. devonianum Jeanne Kaeding

2nd Cym. madidum Constance Anglin

**84 Cymbidium standard hybrids: White, Pink**

1st Cym. Unknown Kathy Kluge

2nd Cym. Big Chief 'Kirrawaha' Murphy's Orchids

3rd Cym. Samarkand Murphy's Orchids

**85 Cymbidium standard hybrids: Yellow, Green**

1st Cym. Persian Gold Jeanne Kaeding

**86 Cymbidium standard hybrids: Other Colors**

2nd Cym. (Shady Lady × Mighty Mouse) Murphy's Orchids

**88 Cymbidium miniature hybrids: Yellow, Green**

1st Cym. Jean Brummitt Jeanne Kaeding

**89 Cymbidium miniature hybrids: Other Colors**

1st Cym. Dorothy Stockstill 'Forgotten Fruit' AM Marlow Orchids

2nd Cym. Miss Muffet 'Agate' Jeanne Kaeding

3rd Cym. Little Black Sambo Judy Wischoff

**90 All other genera-species, hybrids & intergeneric hybrids of the Cymbidium Alliance other than above**

1st Aslla. africana Cloud's Orchids

3rd Aslla. africana var. alba 'Garden Park' Cloud's Orchids

**91 Lycaste and allied genera-species, hybrids & intergeneric hybrids other than above**

1st Lyc. cruenta Cloud's Orchids

2nd Lyc. Memoria Joan Burnham Dwaine Levy

3rd Lyc. (Cherish x Cold Sunset) NFOS

**92 Maxillaria and allied genera-species, hybrids & intergeneric hybrids other than above**

1st Max. tenuifolia Paul Batz

2nd Max. variabilis Judy Wischoff

3rd Max. tenuifolia Carol Butcher

**93 Zygopetalum and allied genera-species, hybrids & intergeneric hybrids other than above**

1st Zns. Cynosure 'Blue Birds' Windswept in Time

2nd Prom. Meadow Gold C. Ufford (CNYOS)

3rd Agn. cyanea × Blptm. Midnight Blue Marlow Orchids

**95 Catasetum, Clowesia, Cycnoches, Dressleria, Mormodes and allied genera-species, hybrids & intergeneric hybrids, other than above**

2nd Ctsm. Platypil Paul Batz

**97 Calanthe, Phaius, Chysis, Bletia and allied genera-species, hybrids & intergeneric hybrids other than above**

1st Gp. Dan Rosenberg 'Mello Yello' Paul Batz

2nd Chy. bractescens Bloomfield Orchids

2nd Phcal. Kryptonite Jeanne Kaeding

3rd Chy. bractescens Main Street Orchids

**99 Coelogyne and allied genera-species, hybrids & intergeneric hybrids other than above**

1st Coel. flaccida Marlow Orchids

2nd Coel. usitana 'Rothschild' Mt. Prospect Orchids

**100 Bulbophyllum, Cirrhopetalum and allied genera-species, hybrids & intergeneric hybrids other than above**

1st Bulb. falcatum Windswept in Time  
 2nd Bulb. (sulqueii x ecuolarum) Murphy's Orchids

**101 Jewel orchids and allied genera-species, hybrids & intergeneric hybrids other than above: to be judged on foliage. Plants need not be in bloom.**

1st Anct. chapaensis 'Tomasso' Mt. Prospect Orchids  
 3rd Anct. chapaensis Iris Cohen (CNYOS)

**102 All other genera-species, hybrids & intergeneric hybrids not covered above**

1st Pel. olivacea Dwaine Levy  
 2nd Srgt. sceptrodes Dwaine Levy  
 2nd Srgt. sceptrodes Marlow Orchids  
 3rd Pol. pubescens Judi Witkin (CNYOS)  
 3rd Rbq. cerina 'Rothschild' Mt. Prospect Orchids

**103 Painting, etchings, etc., Artistic or Botanical in nature**

1st Laelia perrenii Natalie Auburn  
 2nd Paph. Starburst x Milmoore Natalie Auburn  
 3rd Watercolor Ersilia Rotandi-Maletta

**104 Photographs**

1st Habenaria medusa Ron Uhlig  
 2nd Sophrocattleya Mari's Magic Ron Uhlig

Note: The past year has been a busy time in orchid taxonomy, with a larger than usual number of species moved to different or new genera. This has been especially true in the Cattleya alliance. While these changes will eventually (probably for our show in 2010) result in plants being moved to new classes, this year, the classes followed traditional naming.

However, we have made an effort to identify the currently accepted (that is, "new") name for all affected species and hybrids and those names have been used in the listing above. To assist you in identifying your plants that have been renamed, we've included the traditional name in parentheses, below the accepted name. We encourage you to update your labels and plant lists.

## GROS Vendors Attend Sonnenberg

Sonnenberg had installed a new hot water boiler system a few years ago. The new system was to produce enough heat for the entire greenhouse complex. However, Murphy's Law stepped in - and what could go wrong, did go wrong. The temperature alarm was outdated and did not function on one of our coldest nights this winter, resulting in the freezing of many plants. The boiler worked but one of the valves that moves the water to the orchid greenhouse did not.

To correct this problem, new sensors were installed so that the security firm who manages fire, theft and other alarms now also monitors the heat in the greenhouse. If there is a drop in temperature, they execute a "phone tree" to make the staff aware of the issue and to take corrective action.

The Sonnenberg Orchid Show, held March 6-8, 2009, was a great success. The Sonnenberg orchid collection was augmented with displays and plants from Al Saltzman, Joe Kunisch, Mike DeVito and Fran Murphy. The 2009 show produced a 50% increase in attendance with a total of 905 paid admissions over the 3 day show. Speaking with the visitors, I learned that many were from Geneva and

points east to which the GROS does not advertise. The show did receive news coverage from the *Finger Lakes Times*, *Canandaigua Daily Messenger*, and the *Rochester Democrat & Chronicle*. Many of the GROS show pamphlets were given out to the visitors and all were encouraged to attend the GROS Show.

The Sonnenberg display at the GROS Spring show received best in show for the Vandaceous Alliance with a Sonnenberg "survivor" of the 2009 Big Freeze - *Sarochilus hartmanii* a warm grower that apparently did not mind the drop in temperature.

To summarize the current situation, the Sonnenberg collection still needs additional summer blooming and early fall blooming plants. If you have divisions please let me know so that I can arrange to deliver them to the Sonnenberg greenhouses.

(*Dendrobium*, from Page 3)

buds. Not just little green knobs on the pseudobulbs. When I do resume regular watering, I try to keep the flowers dry when dunking or misting. This helps prevent botrytis from infecting the flowers. When fully open the flowers have a light lemon scent.

That's all there is to it! Good growing!
